Response to Amendment

1. Applicant's amendment received on September 8th 2009 in which claims 1,15, 24 were amended, has been fully considered and entered, but the arguments are not deemed to be persuasive.

Terminal Disclaimer

The Terminal Disclaimer filed on March 16, 2009 has not been approved by the Office because the attorney is not of record. The Terminal Disclaimer is signed by Edward Mao, however, no record shows Mr. Mao as an attorney of record. The change of address submitted on September 11, 2008 was not entered since the attorney was not part of the record. The applicant must show proof where Mr. Mao became the attorney's of record in the file. In addition, the registration no. of the attorney was not part of the record. The examiner will maintain the obviousness type double patenting pending the approval of the Terminal Disclaimer.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir.

Art Unit: 2621

1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-6, 8-33 and 35-47 are provisionally rejected on the ground of nonstatutory obviousness- type double patenting as being unpatentable over claims 1, and 8-12 of U.S. Patent Application no. 11/644,855 to Zhu et al.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of claims 1, 15, 24, 32, 39 and 44 of the present application are included in the claims 1, and 8-12 of the cited Patent.

Therefore, it is considered obvious that one skilled in the art at the time of the invention having US Patent Application no. 11/644,855 before him/her, would have had no difficulty to modify the conditions and the claim language set in claims 1, and 8-12 of the cited US Patent in order to derive the limitations of claims 1, 15, 24, 32, 39 and 44 of the present application for the same purpose of performing noise filtering in a digital video stream quickly in order to match the frame rate of the digital video stream as taught by Zhu et al.

Claims 2-6, 16-23, 25-31, 33, 35-38, 40-43, 45-47 are rejected by dependency to claims 1, 15, 24, 32, 39 and 44.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gims S. Philippe whose telephone number is (571) 272-7336. The examiner can normally be reached on M-F (10:30-7:00).
